EVERYONE

DESCRIPTION

A rejuvenating complex designed to address temporary hair thinning caused by stress, fatigue, pregnancy, medication, or seasonal changes. Containing HRS-10, a biomimetic peptide combined with a specialized red clover extract rich in Biochanin A. This advanced formula supports the scalp's natural microcirculation to create healthy conditions for new hair growth. Doses of essential nourishment – peptides, vitamins, and proteins – also support keratin production, which help hair appear fuller, thicker, and more lustrous.

BENEFITS

- ✓ Improves proteins in dermal papilla for better hair anchoring
- ✓ Clinically proven to reduce the production of DHT
- ✓ Stimulates hair follicle anchoring, providing fuller, thicker and healthier looking hair
- ✓ Induces a visible increase in the anagen hair density
- ✓ Effectively inhibits the enzyme which converts testosterone into DHT

DIRECTIONS FOR USE

- Apply serum to hair and massage gently into scalp. Do not rinse. Apply twice a day or use as directed by a physician.

INGREDIENT HIGHLIGHTS

- Chamomilla Recutita (Matricaria) Flower Extract, Equisetum Arvense Extract, Humulus Lupulus (Hops) Extract, Trifolium Pratense (Clover) Flower Extract, Salvia Officinalis (Sage) Leaf Extract, Aloe Barbadensis Leaf Extract, Acetyl Tetrapeptide-3, Allantoin, Panthenol
